OBJECTIVES

Motivated pre-final year Computer Science student with basic knowledge in programming and web development. I am eager to learn new technologies and continuously improve my technical skills. With a positive attitude and strong willingness to grow, I aim to gain practical experience through real-world opportunities and build a strong foundation for my professional career.

EXPERIENCE

Mern full stack development

I completed MERN Full Stack Development training with hands-on learning. Gained practical knowledge in building dynamic web applications using MongoDB, Express.js, React.js, and Node.js.

VEI Technologies

I Completed internship in Python for Machine Learning. Learned ML fundamentals and practiced data processing and basic model building using Python.

EDUCATION

2022 – 2023 **HSC, Government higher secondary school**
Percentage - 82%

2023–present **Bachelor of Computer Science, VSB college of engineering technical campus**
GPA: 9.27% (4th sem)

KEY SKILLS

TECHNICAL SKILLS

- Java
- HTML, CSS, JavaScript

SOFT SKILLS

- Teamwork
- Adaptability

CORE SKILLS

- Full Stack Web Development
- Data Structures and Algorithms

DATABASES

- SQL
- MongoDB

PROJECTS

Candidate Reliability Index – Reliabilix

- MERN stack web app to evaluate candidates using attendance, performance, internship, and behavior metrics.
- Calculates dynamic reliability scores with interactive graphs and allows secure CRUD operations via Node.js, Express, and MongoDB.
- Helps organizations make data-driven hiring decisions efficiently.

Portfolio

- Personal portfolio website to showcase skills, projects, and achievements with a clean, responsive design.
- Highlights creativity, technical expertise, and passion for web development.
- Built using modern web technologies for a professional presentation.

CERTIFICATES

Pumo technovation
Full Stack Web Development

NPTEL
Data Structures and Algorithm
Design (Elite Grade)

NPTEL
Cloud Computing (Elite+Silver)

PUBLICATION

05/04/2025 **The Health Emergency Identification and Response System: Revolutionizing Emergency Healthcare with AI and Biometrics,**
Presented research paper at ICRDICCT'25 (Scopus Indexed Conference)
